Our methods of teaching:

One of the most important elements that guarantees efficiency in teaching Polish is working out an effective working system. The method we have tested is based on the three pillars:

firstly: Polish in Polish

We communicate to our students in Polish, and from the first class we encourage them to do the same. Therefore, the students can think and speak as Poles which as a result increases the pace of the learning process.

secondly: Communication is most important

We teach how to use Polish in business and everyday situations, such as making an appointment or eating out. As a part of our methodology, we present grammar in context, giving it a subordinate role.

thirdly: Language level evaluation and class arrangements

We provide you with all levels of proficiency (A0-C1). You will benefit from small groups (average only four students), precise selection of groups, outstanding atmosphere and specialised courses. We evaluate your progress and update you with necessary changes to make your learning even more effective.

TO WHOM IT MAY CONCERN

Since positioned in Poland in 2013, I have taken my Polish language classes with Klub Dialogu. I came to Poland with no previous knowledge in Polish, but as a result of Klub Dialogu's classes I have gained some basic understanding and not least courage to speak.

Klub Dialogu has proven to be a very professional institution. The one-to-one format (one teacher, one student) is very efficient and the pace of learning is therefore much steeper than in a normal class-setting. Moreover, the teaching can be entirely focused on the student's individual level, making most out of each teaching opportunity. The level of the teachers is excellent when it comes to pedagogical skills, efficient learning methods and kind and encouraging attitude. Since my work at the embassy involves intensive and sometimes unpredictable work load, I have very much appreciated the flexibility when it comes to arranging classes and last minute changes to the schedule has been smoothly solved.

With regards to the above mentioned information based on my own experience, I can warmly recommend Klub Dialogu to other professionals including diplomatic missions.

To whom it may concern

In 2004 the College of Europe has chosen the offer of Klub Dialogu in a call for tender from many other proposals concerning Polish language courses for foreigners. The co-operation with the school started from an intensive two-week Survival course for 48 students of different nationalities. The lessons were held in three groups, five times a week for 1,5 hour every day. It was designed for foreigners who never have had contact with Polish language. Therefore the programme was based on a communicative approach to help the students to become independent in every day situations.

Due to the highly qualified teachers the course was conducted in accordance with the considerable cultural diversity of its participants. What is worth noticing is that Klub Dialogu delivered all the manuals used during the lessons and prepared a test, which aimed the verify the student's progress.

The co-operation with Klub Dialogu was so rewarding that it continues for over three years up till now in a form of different one-term courses (Survival, courses for advanced students, individual trainings).

Given this very positive experience in a highly demanding multicultural milieu the College of Europe can support all applications which Klub Dialogu may make for developing innovative ways of teaching Polish to foreigners.

To Whom It May Concern:

I have been a client of Klub Dialogu for the past six months during which time I have studied Polish twice weekly for two hours each lesson. Over the course of my engagement with Klub Dialogu, I have been more than satisfied with the company, my teachers, the lessons and my progress in spoken Polish. In fact, Klub Dialogu has delivered substantially beyond my expectations in nearly every category of service, from office management to conduct of my lessons. The office staff is eminently professional; making changes to my weekly schedule and other administrative matters have been simple and straightforward. My teacher and substitutes are highly qualified linguistically, motivated to deliver quality instruction, consistently well prepared and have greatly improved my ability to communicate in Polish. I have been particularly impressed with my primary teacher Ms. Agnieszka Rybak who has an uncanny ability stimulate discussion, motivate independent study and maintain a balance between effort and enjoyment in her classes.

It has been a personal and professional pleasure studying with Klub Dialogu and I recommend the firm without hesitation.
