- *Polish? We make it possible!* -

Learn Polish with a twist during summer!

As you may know, for many years, during the summers we always host myriad events! We've been canoeing, watching street art, treasure hunting, watching concerts. This year you can expect some of the same and more!

Hot tea and drinks after the stunning street art event last year.

Treasure hunting games - our models didn't disappoint ;-)

Many of us and our students enjoyed canoeing along a sun-drenched Warsaw river.

Last summer we warmly welcomed our new location for the school!

Horse riding, learning new skills in a unique trip amongst Polish nature.

A visit to Klub SPATiF to listen to the orchestra, dance and enjoy great company.

At Klub Dialogu, we prioritise and take pride in making you feel at home with our service, not only in the classroom, but within the whole school!

Professionalism:
Highly qualified teachers and a team of Board Directors ensure the highest standard of teaching.

"The best place in Warsaw to learn Polish. This is not (only) a school, this is a different place where teachers and directors really care about you and your development. Super recommended!"

- Mike, Italy

- An interview with one of our students - Richard -

How long have you been learning Polish? Where did you first start learning?

I have been learning Polish for a few years. I started teaching myself, but it quickly became obvious that I needed professional guidance.

The differences between English and Polish are many and complex. I was lucky that I picked Klub Dialogu as my first school, and I have never been tempted to move elsewhere throughout the year.

What is one of your favourite and most difficult things about the Polish language? The teachers are always positive and helpful and supportive - even with a lazy student like me. Their commitment is shown not just in the classroom, but can be seen in the many social activities that the school organises.

The most difficult aspect for me about the Polish language are the declinations, the gender specific declinations. How many different ways do you need to say the same thing?!! I like the consistency of the language - the letters are always pronounced the same - well nearly always. But some of the combinations!!! Someone must have been drunk when they put so many sz, prz, cz etc combinations together.

If you could give someone advice about learning Polish, what would it be? If I had to give a learner of Polish one piece of advice? Practice and repetition. Practice and repetition. More practice and repetition.

I really must listen to my own advice...

- LEARNING POLISH IN BETWEEN THROWS! -

Klub Dialogu went bowling and we had a blast ;-) learning Polish is never boring, but with us you can always GUARANTEE fun twists, turns and adventures along the way.

Join us in summer - we'll be going bowling and much more! Keep your eyes peeled for our summer events calendars.
